

WILDLAND MPT CLASSIC SERIES

Meet Your Newest Wildland Weapon

Compact in size, Spartan ERV's newest MPT configuration offers flexible designs, with the ability to pump and roll with Rapid CAFS while hauling up to 500 gallons of water. The chassis engine drives all the truck's operations, freeing up space and reducing maintenance. Water pump, compressor, and foam system componentry are located under the flatbed deck, resulting in a low profile and low center of gravity.

CAPABILITIES

- Haul up to 500 gallons of water
- Low profile for superior off road handling
- Pump and roll with rapid CAFS
- Flexible flatbed configurations
- Small, lightweight package

CONFIGURATIONS

CHASSIS

- Ford F-550 4x4
- Ford F-450 4x4
- Single, Club or Crew Cab

FLATBED

- 8' Flatbed
- Aluminum Construction
- Flexible configurations

COMPRESSOR

- Van Air 200 CFM Compressor
- PTO Driven
- 100 CFM at 100 PSI

PUMP & FOAM SYSTEM

- Hale HP100
- One-Touch Rapid CAFS
- Hale 2.1A Foam System
- Interior and Exterior Controls
- Electric or Manual Valves

STORAGE

- (2) 23" x 23" x 6' Compartments
- Custom configurations available

INLETS

- 2-1/2" Pony Suction
- 2-1/2" Tank to Pump

DISCHARGES

- 1-1/2" Left Side Preconnect
- 1" Tank Fill

OTHER FEATURES

- Front grill guard
- Front bumper turret/winch
- Headboard
- Rear bumper w/tow eyes
- Single fuel source

Let the POWER of a single engine do the driving.

Combine the configuration of the transmission and PTO with simplified electronics and here's a truck that gives you instant firefighting tools. This truck is configured to do the thinking for you by automatically engaging all components that drive the core functions. All that's left for you is to do what you've been trained.

RAPID CAFS

ONE-TOUCH CAFS

Engage and control CAFS in a matter of seconds through a single button and easily control the wetness or dryness by gating the water valve.

PUMP & ROLL

Pump and roll with Rapid CAFS equips you with a versatile firefighting tool that is easily controlled with a joystick from inside the cab.

300-500 GALLONS

Haul 300 to 500 gallons of water without sacrificing Rapid CAFS and pump and roll capabilities.

DRIVEN BY ONE POWER SOURCE

FEATURES

Customize your front bumper with a heavy-duty turret or winch to enhance your firefighting capabilities.

Programmable controls give you instant access to your trucks operations.

Customized storage space ensures you have the right tools, in the right place when you need them.

Simple, streamlined controls make for easy operations from inside and outside the cab.

The auto fill feature allows the firefighter to fill the foam cell without having the foam container leave the ground.

Componentry located under the flatbed deck results in a low profile and low center of gravity for superior off road handling.
